

Policy Aims and Objectives of the National Property Administration in 2020

Improving national asset management to create asset activation benefits

- 1 Actively implementing national real estate take-over to promote the benefits of activating non-public use properties. Speeding up the survey of national property to improve operational performance.
- 2 Utilizing the national property database modification platform to complete property registration data, integrate information resources, and enhance and promote the management and utilization performance of national property.
- 3 Collaborating with government agencies at all levels to appropriate national real estate for operational needs (including long-term care services).
- 4 Conducting the handover of land used for the construction of public facilities to local governments to accomplish the goal of management and utilization in one.
- 5 Advising government agencies at all levels to enhance public use property management operations, promoting the efficacy and benefits of the utilization of national property.
- 6 Actively handling and retrieving occupied land according to the “Plan for Strengthening Clean-up of Occupied National Non-Public-Use Real Estate – Phase 2” to solve the problem of occupied land, activate the utilization of retrieved land, and increase the benefits of property utilization.
- 7 Releasing national real estate with the establishment of superficies tender, leasing (including lease by tender), improving utilization and other diverse means for active use by the private sector in order to promote private investment and increase revenues for the National Treasury.
