

Policy Aims and Objectives of the National Property Administration in 2019

Improving national asset management to create asset activation benefits

- 1 Implementing national real estate take-over registration, increasing profitable national property; conducting survey on utilization of national property, and improving business performance.
- 2 Utilizing the national asset database modification platform to improve national property ownership management and performance of utilization.
- 3 Implementing national real estate appropriation to cope with the demands of government agencies at all levels in cooperation with the operation of public institutions or the need of public construction (including the establishment of social housing, etc.).
- 4 Cleaning up completed construction public facility land and handing the land over to local governments for management to achieve the goal of integrated management and usage.
- 5 Improving the administration of national public use property and revitalization of property use to enhance asset utilization benefits.
- 6 Executing the “Plan for Strengthening Clean-Up of Occupied National Non-Public-Use Real Estate” to activate the utilization of recovered land and increase usage value of the lands.
- 7 Flexible applying the methods of rental (including tendering), superficies tender, modification and utilization of national property to promote land profit and increase Treasury’s revenues.
