III. the Data Scope, Periodicity and Timeliness

- * Coverage and Object:
Disposition of national non-public properties owned by our country.
 - * Statistical Standard Time:
The data is collected based on the facts that have happened in a certain fiscal year.
 - * Definition of Statistical Items:
 - (I) Appropriation without compensation: Refers to the real estate appropriated without compensation after the related plan has been reported to and approved by the Executive Yuan.
 - (II) Appropriation with compensation: Refers to the real estate appropriated with compensation after the related plan has been reported to and approved by the Executive Yuan.
- (Note) In principle, government agencies do not need to pay compensation

when carrying out appropriation for the public use of real estate according to Article 26 of the Land Law or Article 38 of the National Property Act, but the following real estate should be appropriated with compensation:

1. National academic use property not appropriated for the use of public schools, roads, and historic sites.
2. The real estate appropriated by state-owned enterprises of which the profit or loss is independently computed from other agencies and vice versa.
3. The real estate that has been approved purposefully to be sold for the purchase of other property not for the use of roads.
4. The real estate obtained by the management agency with a loan and the earnings of disposing it has been included in the debt repayment plan.
5. The tax-deductible real estate or the real estate the revenue service agency keeps after the administrative enforcement agency has failed to auction it.
6. Real estate appropriated by special funds and other agencies from each other, and not under one of the following conditions:
 - (1) School funds or local education development funds indeed in financial difficulty apply for the appropriation of real estate other than special funds for use by public schools.
 - (2) Housing funds apply for the appropriation of real estate other than special funds for building social housing.
7. Real estate used by slaughterhouses, markets, and public property development enterprises except the local government's real estate appropriated without compensation with its consent.
8. Real estate in residential district, commercial district, and industrial district, real estate in special district allowed for residential, commercial, and industrial use, or non-urban land designated as type A, B, C, D construction land to be used as building land with buildings and improvements on it, and not under one of the following conditions:
 - (1) State-owned real estate appropriated for use by central government agencies.
 - (2) Real estate appropriated for historic sites, historical buildings, social housing, roads or ditches.
9. The land of real estate mentioned in the preceding paragraph within the scope of the urban plan has been changed to a use zone not for residence, commerce, industry or permitted uses after August 4, 2005, and the change was not under one of the following conditions:

(1)The competent authority in charge of the business concerned made the change according to the relevant laws.

(2)The change was made according to Article 26, or Subparagraph 1 or Subparagraph 2, Paragraph 1, Article 27 of the Urban Planning Law.

(3)The change was made according to Subparagraph 3 or Subparagraph 4, Paragraph 1, Article 27 of the Urban Planning Law after obtaining the consent from the management authority of the public property.

10. Other real estate that shall be appropriated with compensation according to law.

(III)For sale: Refers to the real estate for sale or auction.

(IV)Write off property register: Refers to land loss, destroyed house or cancellation of property registration.

(V)Granting: Refers to the land granted by the government according to law.

* Statistical Unit: NT \$ 1,000; hectare; block; piece
