- * Floppy Disk: Yes None
- * Disc: Yes None
- * Other: None

III. the Data Scope, Periodicity and Timeliness

- * Coverage and Object:
Disposition of national non-public properties owned by our country.
- * Statistical Standard Time:
The data is collected based on the facts that have happened in a certain fiscal year.
- * Definition of Statistical Items:
 - (I) Appropriation without compensation: Refers to real estate appropriated without compensation (excluding appropriation based on estimated area) after the related plan has been reported to and approved by the Executive Yuan.
 - (II) Appropriation with compensation: Refers to real estate appropriated with compensation in accordance with a special law or the "Principles for the

Distinction Between Compensated and Non-Compensated Appropriation of Public Real Estate Among Government Agencies at All Levels,” as stipulated by the Executive Yuan.

(III)For sale: Refers to the real estate disposed of through sale, sale by tender, or assessment-based provision in accordance with the law.

(IV)Write off property register: Refers to real estate that ceases to exist, write-off of property registration, or non-compensated disposition of real estate.

(V)Granting (Write-off): Refers to land for which the grantee has fully paid the land price and completed the ownership transfer registration. However, as new granting cases are no longer processed, this category is retained in related business reports with the notation “Write-off.”

* Statistical Unit: NT \$ 1,000; hectare; block; piece

* Statistical Classification:

Make the cross-classification according to the handling of property, management agencies, and property categories.

* Release Periodicity (the frequency of data compilation or producing, such as month, quarter, year, etc.): Year

* Timeliness (the interval between the end of statistical standard time and data release time): 4 months

* Major Change:
